- **PLE** at Mugwanya Preparatoy School Kabojja - *FEBRUARY 2008 - NOVEMBER 2014*

## Additional training and Learning

- Attained a DevOps Beginners Certificate from **EDUREKA**, a leading online software engineering institution. Gained proficiency in DevOps-related languages and frameworks, including Git for version control, Jenkins for continuous integration, and basic familiarity with scripting languages such as Python and Shell scripting.
- Completed a Front-End Engineering Seminar from **Codecademy**, a reputable online academy for software engineers. Acquired foundational skills in front-

end development, including proficiency in HTML, CSS, and JavaScript, along with hands-on experience in popular frameworks such as React.

### **Additional involvements/Responsibilities**

#### **Front end engineer for spenderventures ug**

***may 2023-todate***

As the lead front-end developer for the on-site React dashboard at Spenderventures UG, I crafted a responsive and user-friendly interface using HTML, CSS, and JavaScript. Employing React and related libraries, I ensured a dynamic and efficient user experience, empowering offsite farmers to easily track produce, monitor task progress, and manage sales.

#### **Masaka District Local Government(Health Department)**

***October 2023- to-date***

Established a robust database at Masaka's District Health Department, utilizing programming languages such as SQL. Designed to track and manage diverse items, from vehicles (cars, motorcycles) to equipment (gumboots, computers). Enhanced transparency and accountability in resource handling through efficient inventory management.

#### **Personal sale app**

Developed a personal app enabling seamless buying and selling of old items. Leveraging Flutter and Dart, I crafted a user-friendly platform that enhances the user experience. The app provides a convenient marketplace for users to effortlessly transact and exchange pre-owned items, combining functionality with a modern and intuitive design.

### **Additional Knowledge and Skills**

#### ***Applied IT Expertise:***

- Application of IT concepts in real-world scenarios
- Analyzing and addressing business needs using IT solutions
- Basic project management within an IT context
- Data management, analysis, and visualization
- Effective communication and collaboration across disciplines

#### ***Office Management and Microsoft Suite Proficiency:***

- Word Processing: Document creation, formatting, collaboration
- Data Analysis and Presentation: Excel (formulas, pivot tables, charts), PowerPoint (presentations)
- Communication and Collaboration: Outlook for email management, scheduling, task organization
- Database Management: Access for creating and managing databases
- Cloud and Productivity Tools: Teams, OneDrive, SharePoint for collaboration and storage
- Automation and Integration: Macros, VBA programming, integrating Office tools

### **Interests**

Football  
Basketball  
Forex trading

**Languages**

English  
Luganda  
French
